# RAINBIT

Cloud  
Pokemon  
Water  
Psychic

Habitat: Mountains  
Diet: Water, Light  
Stat: Special Def, HP

A small lagomorphic monster. It comes from the sky, being born from the light of rainbows. It is as light as a cloud and is susceptible to strong wind. During the daytime, its white fur will change color at random. At night or when in a dark place, it will return to white, while the marks on its cheeks will glow. this is where it retains the light it has collected through the day.

# DUSTOMORPH

Dust Bunny  
Pokemon

Dusted: Normal

Ghost

Undusted: Normal

Habitat: Houses

Diet: Crumbs

Stat: Speed

A tiny rabbit-like monster that lives in small crevices in houses. It is extremely nervous and skittish. It hides itself with dust around the house, creating a disguise to appear larger and more unassuming. The dust can be blown off by strong wind or water, after which Dustomorph will run and hide, scrambling to find more dirt.

# TREBLEFLUF

Jovial  
Pokemon  
Normal  
Psychic

Habitat: Grasslands  
Diet: Sweets  
Stat: Def, Sp. Atk

A small bunny monster known for the many sounds it makes when it moves. Its fur makes xylophone like noises. Shaking its tail makes a bell sound, and it can clap its ears to sound like a cymbal. It has an extremely joyful personality and loves to dance and make its noises. It is popularly used in parades and concerts.

# ROTLAD

Smelling  
Pokemon  
Poison

Habitat: Dumpsters,  
Sewer

Diet: Rotting Fruits

Stat: Sp. Atk, Def, Evas.

Rotlad is a worm with no eyes. It lives its life through smells. It lives in a bowl filled with a noxious liquid, with a pungent stench of rotting fruits and vegetables; indicative of its diet, and also its sense of self. Its ability to distinguish smells is unmatched, being able to distinguish between individual pieces of food. It has an aversion to meat, finding it too dry.

# FERRESATION

Fashion  
Pokemon  
Normal

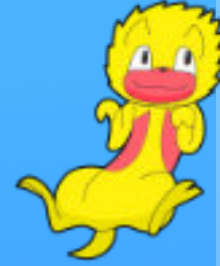

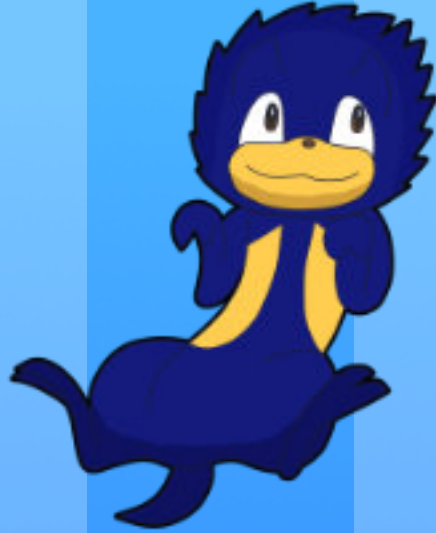

Habitat: Cities, Towns  
Diet: Pokeblocks  
Stat: None

This Pokemon is rare to find in the wild and mainly bred in captivity. It is a very weak fighter. However it is beloved as an accessory and a pet. Many like to wear it like a scarf. It is incredibly flexible, able to rotate all parts of its body around 360 degrees, and can fit into even tiny spaces. It's said its ancient ancestors used to be much more powerful and may even have had claws.

# SONEZUMI

Breakneck  
Pokemon  
Electric Fighting

Habitat: Cities, Towns

Diet: Pork

Stat: Atk, Speed

A eulipotyphlan monster. Its head and back are covered in quills for its protection. It enjoys running at high speeds and showing off to others. It can also roll into a ball after a running start. It has been known to break the sound barrier. When not in battle, it is very relaxed and chill, but prefers being alone.

# STEADCROW

Flying Tree  
Pokemon  
Grass Flying

Habitat: Forest Clearings  
Diet: Sunlight  
Stat: Special

Steadcrow fly during the day and plant themselves into the ground at night. Many have called a flock of them a "flying forest". Being completely still otherwise, Pokemon often confuse it for an actual tree, and are surprised when it starts moving at sunrise. It doesn't care much for other creatures, ignoring them unless it poses a true threat to them.

# PSYSINOGEN

Hallucination  
Pokemon  
Psychic Dark

Habitat: Woods  
Diet: Berries  
Stat: Special

This monster mysteriously shares many traits of a variety of others. It is unknown if they are related to said monsters or if this is another one of its tricks. It seems to appear differently to different people. Besides its appearance, it creates a lot of visual hallucinations. Sometimes this is to ward others away from its habitats, other times it is out of malice.

# CHERULIGHT

Egg  
Pokemon  
Fire

Habitat: Craters  
Diet: Unknown  
Stat: Sp Def.

A Pokemon known to have come from space. They fall into the atmosphere like meteors and leave craters behind, which they live in like nests. They rarely leave the place of their landing as they aren't used to this planet and tend to get lost easily. It has a red glow to it and radiates a warm aura.

# SERAPHERNO

Angel  
Pokemon  
Fire Flying

Habitat: Unknown

Diet: Unknown

Stat: Sp Atk., Sp Def.

After evolving from Cherulight, they leave their craters to search for a purpose to their life. Still getting used to the planet it has landed on, its walk and flight are wobbly. When they find a place to call home, they will defend it with their whole being. Its feathers keep their warmth even after molting.

# OPHESTIAL

Guardian  
Pokemon  
Fire Fairy

Habitat: Unknown

Diet: Unknown

Stat: Sp Atk., Sp Def.

Ophestial are hardly seen by most people and tend to appear physically only in times of great peril. They are revered as guardians of various villages. They shine bright and hot, and are thought to be able to hide between rays of light. They rarely touch the ground, but move very fast when they do.

# LUPIDREAVIAN

Walker  
Pokemon  
Ice Flying

Habitat: Dreams(?)

Diet: Unknown

Stat: Defense, Sp Def.

Little is known about this Pokemon. It seems to only appear in prophetic dreams, and accounts of its appearance vary from person to person. It's possible there may even be multiple specimen, but nobody has seen one outside of a dream.
